Amendment of 04/04/05 has been entered. Claims 1-3, 5-8, 10-17 and 19 are pending. Claims 1-3, 5-8, 10-17 and 19 are under examination. The amendment has entered no new matter.

The following objection of is maintained or modified as follows:

Claim 15 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 1.

When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Applicant has amended claim 15 to now recite “prepared by a process” whereas claim 1 recites “obtainable by a process”. This is the only difference between claims 1 and 15. The examiner finds that this is not a material difference. Both claims require examination by the same standard set forth in MPEP 2113.

With respect to post-grant considerations, applicant has cited no authority which would indicate that the courts would consider there to be any difference between the two claims because of the difference in language – i.e. that the courts would consider one claim, but not the other, to be enforceable because of a difference in scope.

Given the lack of any indication in the record that the claims would be interpreted differently, the objection is maintained.

Applicant's arguments filed 4/4/05 have been fully considered but they are not persuasive.

On attached form 1449, the Karger, Vox Sanguinis reference has been lined out. This is not a proper listing of any reference. There are four abstracts on page 112, which is the only page

with any disclosures; applicant has failed to list any one or more of these abstracts by author's name and the abstract number.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
